# INTERNATIONAL REGISTRATION OF HOSTA CULTIVARS

The following is the *minimum* required for registration:

- This form with the front page completed in its entirety.
- One photographic print or slide of the clump, with leaf detail discernable.
- Written permission from the originator if other than the registrant.

The following is optional but strongly requested:

- Any information requested on the back side of the form now or as soon as available.
- A different photo showing leaf detail.
- A \$5 registration fee. Check payable to The American Hosta Society (unpaid fees will be paid by The American Hosta Society).

Forms, fee, photos, etc. should be mailed to: Hosta Registrar, James W. Wilkins, Jr., M.D., 7469 Hunters Ridge, Jackson, MI 49201. Terms used on this form can be found in The American Hosta Society Glossary of Terms. Questions can be answered by calling 517-536-4304 (evenings) or emailing HostaRegistrar@Voyager.net. **Please note:** Un-established cultivar names submitted for registration do not become established until they are published in *The Hosta Journal* accompanied by their description and thus could become established outside of registration prior to that publishing date. **Feel free to photocopy this form for additional copies and distribution.**

# 2001 *Hosta* Registrations

Thanks, to all who took the time to register cultivars in 2001.

There were 154 registrations for 2001. An updated index is included with this year's new registrations. Corrections to prior registrations are on page 34. Registrations are established when printed in a publication that reaches the general public. Other communications, including electronic media, are not considered valid for epithet establishment under the International Code of Nomenclature.

The simplified form introduced in June of 1998 resulted in some wide variation in the detail of cultivar descriptions. One significant difference was in the dimensions of the "plant". Part of the simplification was to give registrants the option to place their cultivar in a more general category rather than give the specific dimensions. These categories (miniature, small, medium, large, and giant) are somewhat arbitrary. Since the object was to not have to measure clump size, no dimensional ranges have been attached to the categories.

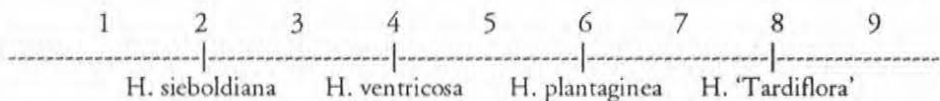

Under parentage information (found within the brackets) the category of "parentage undetermined" was added in 1997. As is consistent with the registrar's policy of not adding further to the confusion of the nomenclatural soup, this category is used when the parentage information submitted by the registrant contradicts information already in print. "Parentage undetermined" does not imply anything regarding the validity of either existing published information or information submitted by the registrant, only that an inconsistency exists. Parentage information published with registrations is intended to be "known parentage" as opposed to guesses, educated or otherwise.

## Brief Key to Descriptions:

ONIR: O=originator, N=nominant (Namer), I=introducer, R=registrant.

**Flowers:** Bloom periods are given in either start – peak – finish format or a more general period format. The general periods are very early period: before June 1, average period: June 1 – July 15, summer period: July 15 to August 15, late period: August 15 to October 1, very late period: after October 1.

**Bloom Period Codes:** Ties the flowering of the cultivar to a "species scale". The registrant has provided the number code from the scale below for the start - peak - finish of the flowering period.

**Forms:** Registration forms are available from the registrar, or may be obtained on the Internet at: <http://www.hosta.org/> or at: <http://hostalibrary.org/>. I welcome inquiries regarding availability or validity of names in advance of the formal submission on registration request forms.

## Corrections to previous registrations:

The correct parentage for the *H.* 'Retread' published in *The Hosta Journal*, Vol. 32 No. R p. 23 is *H.* 'Undulata' hybrid.

The description of *H.* 'Toots' published in *The Hosta Journal*, Vol. 30 No. 1 p. 114, was in error. This cultivar has no marginal variegation.

The hosta cultivar epithet for *H.* 'Sheila Maqueen' published in *The Hosta Journal*, Vol. 32 No. R p. 27 should be corrected to *H.* 'Sheila Macqueen'.
